If anything like this is found, then appropriate action will be taken and apply copyright ACT to you. You will be responsible for illegal work. So don't share and upload on any media.

Q1: Read the following passage and answer the questions given below:

In today's interconnected world, technology is not just a tool; it is the foundation upon which modern communication and professional growth are built. The rise of digital platforms has revolutionized how we share information, collaborate, and make decisions. From instant messaging and video conferencing to collaborative software and cloud-based tools, technology bridges geographical gaps, enabling global teamwork and faster problem-solving.

Artificial Intelligence (AI) and automation are redefining workplace dynamics, creating a demand for adaptive soft skills like critical thinking, creativity, and emotional intelligence. Professionals now rely on virtual platforms to enhance productivity and efficiency, using tools such as project management software, digital calendars, and analytics dashboards.

However, the rise of technology also poses challenges. Over-reliance on digital communication can dilute interpersonal connections, and the fast-paced environment may lead to stress. Thus, striking a balance between leveraging technology and nurturing human interaction is essential for sustainable professional growth.

Moreover, being tech-savvy is no longer a luxury but a necessity in virtually every industry. Staying updated with the latest trends, mastering new tools, and understanding the ethical implications of technological advancements are integral to a successful career in the modern era.

i. What are some ways technology has revolutionized workplace communication?

Ans. Technology has revolutionized workplace communication through instant messaging, video conferencing, collaborative software, and cloud-based tools. These advancements enable real-time interaction, seamless data sharing, and effective teamwork across geographical boundaries.

ii. Discuss the role of Artificial Intelligence in shaping the future of professional skills.

Ans. Artificial Intelligence (AI) plays a crucial role in shaping professional skills by automating repetitive tasks, analyzing large data sets, and enhancing decision-making. It also creates a demand for soft skills like critical thinking, problem-solving, and emotional intelligence, as professionals need to adapt to AI-driven changes.

iii. List three digital tools commonly used in professional environments and explain their significance.

Ans.

1. **Project Management Software (e.g., Trello, Asana)** – Helps teams organize tasks, set deadlines, and track progress efficiently.
2. **Digital Calendars (e.g., Google Calendar, Outlook Calendar)** – Assist in scheduling meetings, setting reminders, and managing time effectively.
3. **Analytics Dashboards (e.g., Google Analytics, Tableau)** – Provide data insights to optimize business strategies and improve performance.

iv. How has technology contributed to global collaboration in modern workplaces?

Ans. Technology contributes to global collaboration by enabling virtual meetings, cloud-based document sharing, and real-time communication. Tools like Zoom, Microsoft Teams, and Google Drive allow professionals from different locations to work together effectively, fostering innovation and teamwork.

v. What challenges might arise from over-reliance on digital communication? Suggest solutions.

Ans. Over-reliance on digital communication can weaken interpersonal relationships, reduce face-to-face interactions, and increase stress due to constant connectivity. Solutions include setting boundaries for screen time, encouraging in-person meetings, and practicing mindful communication.

vi. Explain the importance of balancing technology use with interpersonal skills. Provide examples.

Ans. Balancing technology with interpersonal skills is essential for strong professional relationships. For example, while emails and chats ensure efficiency, in-person meetings or video calls help build trust and clarity. Team-building activities and active listening further strengthen workplace connections.

vii. Why is it essential to stay updated with technological advancements in your career?

Ans. Staying updated with technological advancements is essential to remain competitive in the job market. It helps professionals improve efficiency, adapt to industry changes, and leverage new tools for better productivity and innovation.

viii. Describe the ethical considerations that professionals must keep in mind while using technology.

Ans. Ethical considerations in technology use include data privacy, cybersecurity, responsible AI usage, and avoiding digital misinformation. Professionals must ensure compliance with legal regulations, protect sensitive information, and use technology ethically to maintain trust and integrity.

ix. How does technology enhance productivity, and what strategies can professionals use to manage tech-related stress?

Ans. Technology enhances productivity by automating tasks, streamlining workflows, and improving data-driven decision-making. To manage tech-related stress, professionals can set boundaries on digital usage, take regular breaks, and use productivity tools mindfully to avoid burnout.

x. What soft skills complement technological expertise in achieving professional success?

Ans. Soft skills that complement technological expertise include critical thinking, creativity, adaptability, teamwork, and emotional intelligence. These skills help professionals effectively navigate technological changes, solve problems innovatively, and collaborate successfully in a dynamic work environment.

Q2: Pick out words/phrases from the passage which have the following meanings.

- i. connecting the world
- ii. transformed
- iii. career development
- iv. spreading knowledge
- v. groupware
- vi. corporate behaviour
- vii. global synergy
- viii. over-dependence
- ix. renewable / long lasting
- x. moral overtones

Ans. The words/phrases from the passage that match the given meanings:

- i. connecting the world – *interconnected*
- ii. transformed – *revolutionized*
- iii. career development – *professional growth*
- iv. spreading knowledge – *share information*
- v. groupware – *collaborative software*
- vi. corporate behaviour – *workplace dynamics*
- vii. global synergy – *global teamwork*
- viii. over-dependence – *over-reliance*
- ix. renewable / long-lasting – *sustainable*
- x. moral overtones – *ethical implications*

Q3: Put the verbs in brackets in their correct form.

Last weekend, I **decided** (past tense of "decide") to spend a day at the park. Early in the morning, I **packed** (past tense of "pack") my bag with snacks, a book, and a frisbee. When I **reached** (past tense of "reach") the park, I **found** (past tense of "find") a quiet spot under a tree. I **sat** (past tense of "sit") down and **read** (past tense of "read") a few chapters of my book.

Later, I **met** (past tense of "meet") some friends who **brought** (past tense of "bring") a picnic basket. We **played** (past tense of "play") frisbee for hours and **enjoyed** (past tense of "enjoy") the warm sunshine. It was a day full of fun and relaxation.

Q4: Write short notes on any four of the following:

- i) Importance of communication skills in professional and personal settings.
- ii) Role of emotional intelligence in building effective relationships at work.
- iii) Time management skills contribute to productivity and success.
- iv) Significance of teamwork and collaboration in achieving organizational goals.
- v) Impact of problem-solving skills in decision-making processes.

Ans.

i) Importance of Communication Skills in Professional and Personal Settings:

Communication skills are essential for conveying ideas clearly and effectively. In professional settings, they foster collaboration, improve understanding, and help in conflict resolution. Strong communication skills enhance relationships with colleagues, clients, and stakeholders. In personal settings, good communication helps build trust and understanding between individuals, reducing misunderstandings and promoting positive interactions.

ii) Role of Emotional Intelligence in Building Effective Relationships at Work:

Emotional intelligence (EI) refers to the ability to recognize, understand, and manage one's own emotions, as well as the emotions of others. At work, EI helps professionals empathize with colleagues, handle workplace stress, and resolve conflicts constructively. It enables individuals to communicate better, foster a positive work environment, and build trust, which ultimately contributes to stronger, more effective relationships and teamwork.

iii) Time Management Skills Contribute to Productivity and Success:

Time management involves planning and organizing tasks to make the best use of available time. Effective time management skills enable individuals to prioritize tasks, reduce procrastination, and stay focused on important activities. By allocating time wisely, professionals can increase their productivity, meet deadlines, reduce stress, and achieve both short-term and long-term goals, leading to greater success in their careers.

iv) Significance of Teamwork and Collaboration in Achieving Organizational Goals:

Teamwork and collaboration are key to achieving organizational goals. When employees work together, they combine their diverse skills and perspectives, leading to creative solutions and improved problem-solving. Collaboration enhances communication, increases productivity, and fosters a sense of shared responsibility. Successful teamwork allows organizations to tackle complex projects efficiently, meet objectives, and drive growth.

Q5: You have seen *software testing engineer* job in a software company advertised online. Write a letter in about 200-250 words to the company applying for the job. Include relevant factors such as why you are interested in it, your qualifications, experience, what you are doing now and how you could contribute to the position.

Ans.

Hiring Manager
Dell Pvt.Ltd
Bengaluru
652147

Dear Hiring Manager,

I am writing to express my interest in the Software Testing Engineer position advertised on your website. With a strong background in software testing and a passion for ensuring high-quality software products, I am confident that my skills and experience make me a suitable candidate for this role.

I hold a degree in Computer Science and have completed several professional certifications in software testing, including ISTQB Foundation Level. I have gained practical experience through internships and my current role as a QA Engineer at HCL Pvt.Ltd, where I am responsible for performing manual and automated testing on web and mobile applications. My experience includes writing test cases, identifying defects, executing regression and performance tests, and collaborating with development teams to resolve issues. I am well-versed in using testing tools such as Selenium, JIRA, and TestRail.

I am particularly drawn to your company because of your commitment to innovation and excellence in software development. I am excited about the opportunity to contribute to your team by utilizing my skills in test planning, debugging, and improving overall product quality. I believe my attention to detail and problem-solving abilities will allow me to make valuable contributions to your projects.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,
Sunil Poonia

Software Sales Executives (North)

For a

Leading Multinational Company

We are seeking enthusiastic and dynamic individuals, both male and female, to join our team as Sales Representatives for our Accounting Software. The role is based in Gurugram and involves managing sales operations across North India. While no prior experience is necessary, a working knowledge of accounting software is essential for this position.

We offer industry-leading remuneration, with a strong emphasis on performance-based rewards.

Apply to Mr. Rahul Sachdeva

Personal Executive

XYZ Co., Sector-17, Gurugram, Haryana

Ans.

Sunil Poonia

Objective

A highly motivated and dynamic individual seeking the position of Software Sales Executive at XYZ Co., where I can utilize my knowledge of accounting software and contribute to the growth of the organization through effective sales strategies and customer relationship management.

Personal Information

Date of Birth: 25/05/1995

Gender: Male

Nationality: Indian

Education

Bachelor of Commerce (B.Com)

Rajasthan University, Jaipur

Year of Completion: 2014

Relevant Courses:

- Accounting Principles
- Financial Accounting Software
- Business Communication

- Proficient in using accounting software (e.g., QuickBooks, Tally, Zoho Books)
- Strong communication and interpersonal skills
- Ability to build and maintain client relationships
- Excellent negotiation and presentation abilities
- Knowledge of sales strategies and customer management

Experience

Sales Intern

Margo Pvt.Ltd, Jhunjhunu

20/06/2016 to 30/10/2024

- Assisted in managing client inquiries and promoting accounting software products
- Conducted product demonstrations and explained software features to potential customers
- Collaborated with the sales team to achieve sales targets and enhance customer satisfaction

Languages

- English (Fluent)
- Hindi (Fluent)

References

Sandeep, Margo Pvt.Ltd, Jhunjhunu

Thank you for considering my application. I am eager to contribute to XYZ Co.'s success in the role of Software Sales Executive.

Sincerely,
Sunil Poonia

Q7: Mark the stress in the following words:

- | | |
|-------------|------------|
| i) attend | attention |
| ii) believe | belief |
| iii) assist | assistance |
| iv) lovely | loveliness |
| v) commerce | commercial |

Ans. The stress markings for the given words:

- i) **attend** (ə-TEND), **attention** (a-TEN-tion)
ii) **believe** (be-LIEVE), **belief** (be-LIEF)

- iii) **assist** (as-SIST), **assistance** (as-SIS-tance)
iv) **lovely** (LOV-ly), **loveliness** (LOV-e-li-ness)
v) **commerce** (COM-merce), **commercial** (com-MER-cial)

Q8: Prepare a presentation on any one of the following:

- i) **Artificial Intelligence in Education**
ii) **About Applications of IoT in Agriculture**
iii) **Cloud-Based Applications**

The presentation must be about 20 slides.

Ans. i) Artificial Intelligence in Education
